

# THE SOUTH AFRICAN INSTITUTION OF CIVIL ENGINEERING

The South African Institution of Civil Engineering (SAICE) is an independent, autonomous body, representing over 8000 civil engineers, civil engineering technologists and civil engineering technicians.

It is responsible for the advancement of the civil engineering profession and for the dissemination of knowledge of the art and science of civil engineering.

---

Applications are invited for the position of:

## Chief Executive Officer

This opportunity will be of interest to a dynamic professional with excellent communication and management skills and a passion for civil engineering.

The CEO will be responsible for promoting the image and standing of SAICE and its members and for communication and liaison with SAICE members and branches, government, tertiary educational institutions as well as local and overseas institutions. As such, the CEO should be comfortable in communicating SAICE's position across a range of media, including television and radio.

He, or she, will be responsible for leading the Institution in the pursuit of its strategic objectives, transformation, and for the efficient management of the Institution, its national office and secretariat with the support of department heads, in a challenging environment of demographic and environmental imperatives.
